

25th WCD 2023
SINGAPORE
AMBASSADOR

Peter Soyer

Professor H. Peter Soyer has a dual academic/clinical role as the inaugural Chair and Director Dermatology Research Centre, The University of Queensland Diamantina Institute, and as Director Princess Alexandra Hospital Dermatology Department. Professor Soyer, an academic dermatologist from Austria, is a world leader in the field of dermatology with particular expertise in dermatooncology and dermatologic imaging. His research group's main focus is skin cancer, both melanoma and keratinocyte skin cancer.

He has an extensive publication record with over 500 publications (>135 publications in the last 5 years), over 700 citations a year and a Hirsch index of 52 (Researcher ID). He initiated establishment and is Co-leader of the Australian Skin and Skin Cancer (ASSC) Research Centre. He was Co-President of the 9th World Congress of Melanoma, Brisbane, Australia, 2017.

He is lead investigator of the NHMRC Centre of Research Excellence for the Study of Naevi and a Partnership Grant on the early detection of melanoma. He also leads the Australian Cancer Research Foundation (ACRF) Australian Centre of Excellence in Melanoma Imaging and Diagnosis (ACEMID). He was awarded a Medical Research Future Fund Next Generation Clinical Researchers Program Practitioner Fellowship (2018-2022).
